Connecting you to local services to improve your physical and mental wellbeing

Prescribing

Amber Valley CVS Social Prescribing Service...

is a free service being provided in partnership with the Alfreton, Ripley, Crich and Heanor (ARCH) Primary Care Network. The aim of the service is to work alongside G.P. practice teams and community organisations to help you explore activities and local support that could improve your health and wellbeing.

What is Social Prescribing?

Many things in life can make us feel unwell and a medical prescription is not always the answer.

Social prescribing can help you to take control of your own health and wellbeing

by giving you time to think about what matters most to you and how the service can work with you to improve your health and happiness.

Social Prescribing is about developing Stronger Partnerships, between you, your community and supporting services **LONELINESS**

MONEY WORRIES

ISOLATION

UNEMPLOYMENT

EDUCATION

HEALTH AND FITNESS

HOUSING ISSUES

How does Social Prescribing work?

Any professional worker or volunteer can refer you to the Social Prescribing Link Worker, or you can refer yourself by using the details on the next page.

We will then contact you to discuss the referral and arrange to meet you in a place that you feel comfortable, for most people this is at home.

C

Together, we will look at what is

important to you and your wellbeing and develop a Support Plan, identifying how you can access local services and activities to help you reach your goals, with further support from the Link Worker if needed.

What sort of services could the Social Prescribing service link me with?

We can explore local services in your community, such as:

- Housing, benefits and financial support and advice
- Healthy lifestyle and physical activities
- Befriending and support groups
- Training and volunteering
- Social and creative activities
